Capability Information

Crushing and Screening

Bolwarra Enterprises has the capability to independently deliver comprehensive crushing and screening services anywhere. Our fleet includes mobile crushing and screening plants, which are designed for high efficiency and flexibility in a variety of environments and conditions. We have the necessary prime movers and trailer systems to transport these plants to any location, ensuring that we can meet the needs of projects in the most remote or challenging sites.

Hire of Plant

Bolwarra Enterprises provides wet hire of well-maintained reliable equipment, ensuring you have access to high-quality machinery along with skilled operators to handle any task. Our fleet is regularly serviced and maintained by our in house mechanics, fitters and boilermakers to ensure peak performance and reliability. For a detailed list of the equipment available for hire, please refer to the table on the following page.

Concrete Products – Wongabel Concrete

We provide a variety of pre-mixed concrete products for all applications, delivered directly to your site by our fleet of twelve concrete agitator trucks. Our fleet includes seven eight-wheel vehicles equipped with larger 8 m³ bowls. All our products are manufactured in accordance with AS3600 standards and are regularly tested by a NATA-certified laboratory. Additionally, our mobile concrete batching plant allows us to batch concrete on-site, making it cost-effective to supply concrete to large, remote work sites.

- Delivery of all pre-mixed concrete requirements directly to your site via our fleet of twelve concrete agitator trucks.
- Exposed aggregates and a variety of oxides for coloured concrete to meet all your decorative needs.
- Use of the highest quality raw materials to guarantee superior concrete products.
- Certified mix designs with routine quality testing to maintain consistent high standards.
- Reliable service at competitive prices.
- Free quotes provided.
